## **Farmers & Merchants Bank Teams with Intuit Financial Services to Offer Industry-Leading Online Banking**

In 1940, Harry Kujawa founded Farmers & Merchants Bank to offer farmers a place where they felt comfortable coming in straight from the fields to conduct their banking business. Today, Farmers & Merchants is bringing its customers industry-leading tools to allow them the comfort, ease and security to bank from anywhere.

Farmers & Merchants Online Banking enhancement—powered by Intuit Financial Service, the creators of Quicken—will launch in May to deliver customers the ability to:

- Review all accounts, balances and recent transactions in one place
- Budget, track expenses and review past spending from easy-to-use charts
- Pay bills on time with reminders and the ability to set up recurring payments
- Directly connect accounts to **Quicken & TurboTax**
- Bank from anywhere with free mobile solutions, including text message banking

“We’re proud and excited to bring our customers one of the best online banking tools on the market,” says Paul Kujawa, Vice President of Farmers & Merchants Bank. “It’s one more way our customers can connect with us.”

The powerful financial management tools will be available to Farmers & Merchants customers beginning May 4. Personalized and group training sessions will be available to assist customers in learning to make the most of the new tools. To learn more, stop in the main bank or drive-thru, call the e-banking hot line (361-5005) or e-mail [onlinesupport@fmberlin.com](mailto:onlinesupport@fmberlin.com).
